Certification for ERP System Maintenance

This is to certify that the ERP system currently in use at our college and functioning smoothly and effectively since its maintenance. The ERP system operation contributes significantly to our governance and management processes.

As the ERP system is an older version and no formal Annual Maintenance Contract (AMC) is in place, any issues that arise are resolved promptly by engaging skilled personnel. This approach has proven to be both effective and economical, ensuring uninterrupted functionality of the ERP system without compromising on quality.

We hereby confirm that this practice has been consistently followed, and the necessary records of honorarium payments and issue resolutions are maintained at the institution for verification.
