Ethical Values in Research Work

Incorporation of fundamental ethical principles to research activities is an essential element of research. It includes honest planning, conduct and reporting of the findings. Some principles to be adopted for healthy research are-

- Honest reporting of data results, methods, procedures and publication.
- To maintain objectivity in aspects of research such as experimental design, data interpretation and analysis, personal decisions, etc.
- To maintain confidentiality in patents and other personal records.
- Avoid plagiarism and maintain respect for copy rights, patents and other forms of intellectual property.
- Critical analysis of data collected.
- Be fair in mentoring scholars, irrespective of sex, religion, caste, creed etc. and focus on their competence.
- Mentors and scholars should upgrade their knowledge regularly.
- Have compassion while conducting research on animals/humans, causing them minimum risk and harm.
- Take care of institutional and government policies and respect relevant laws.

6th August, 2018

Dear Sir/Madam,

In order to put a check on plagiarism and to recommend some institutional mechanism to eliminate the scope of this menace in higher education system in the country, University Grants Commission in its 530th meeting held on 20.03.2018 considered and approved the *UGC (Promotion of Academic Integrity and Prevention of Plagiarism in Higher Educational Institutions) Regulations, 2018*. These Regulations have been notified in the Official Gazette of India on 31st July, 2018 and are available on UGC website i.e. www.ugc.ac.in.

You are requested to put in force these Regulations in your esteemed University and affiliated colleges and ensure compliance of the same.

This may be accorded Top Most Priority.

With kind regards,

Yours sincerely,

(Rajnish Jain)

The Vice-Chancellor of all Universities.
