

Curriculum Design Policy

Govt. M. H. College of Home Science and Science for Women, Jabalpur, has its own Curriculum Design Policy which sets the guide lines for developing and approving education programmes. This is achieved by making 20% modification in the syllabi provided by the department of Higher Education Madhya Pradesh, for post graduate classes and the Affiliating University Rani Durgavati Vishwavidyalaya Jabalpur for PG classes This policy ensures quality, consistency and alignment with the institutions vision and mission.

Vision –

Govt. M H College of Home Science & Science for Women will be the college of opportunities for women coming from diverse backgrounds by offering quality education for their overall personal & professional development to meet the challenges of fast developing society.

Mission –

- To make women self-reliant and self-sufficient by imparting quality education along with excellence in extracurricular activities
- To provide access, equity and quality in Higher Education
- To create congenial atmosphere for development of character, personality, soft skills, ethical values, courage & self confidence
- To train young women for their future life
- To make best use of Information and Communication Technology.

Some of the key aspects of this curriculum design policy are-

- **Learning Outcome-** The curriculum design should focus on knowledge transfer and clear learning outcomes through which the students can understand what knowledge, skills and ability they will gain by completing this programme.
- **Teaching Methodology-** Using diverse teaching methods that ensure inclusive, participating and experiential learning like lecture, discussion, group projects, hands on activity, internship, educational visits & extension activities.
- **Multifaceted Learning-** Meeting relevant and standard of bench marks, creating awareness regarding cross cutting issues such as environment sustainability, gender sensitivity, moral values, personality development etc.
- **Incubation of Latest Technology-** To meet the demands of the evolving challenges.
- **Relevance to the real world-** Connects to current issues and prepares students for future career and lifelong learning.

By following these policy guidelines and incorporating these attributes, the institution aims at creating such curriculum that is effective in imparting knowledge as well as fostering holistic development of the students enhancing adaptability and producing future ready learners.
